

Manish Kumar

Senior Software Engineer

To leverage 5+ years of experience as a .NET Full Stack Developer in designing, developing, and maintaining scalable web applications using C#, ASP.NET Core, MVC, Web API, Angular, and SQL Server. Seeking a challenging role in a growth-oriented organization where I can contribute to building secure, high-performance, and reliable solutions while continuously enhancing my technical and problem-solving skills in an Agile development environment

➤ Skills

❖ Programming Languages-

- C#
- JavaScript
- TypeScript
- SQL

❖ Backend Technologies & Framework-

- ASP.NET Core
- ASP.NET Core MVC
- ASP.NET Web API
- RESTful Services

❖ Data Access & ORM-

- Entity Framework Core
- LINQ
- Ado.Net

❖ Software Design & Architecture -

- OOPs
- SOLID Principles
- MVC
- Microservices
- API Gateway & Event - Driven

❖ Data Structure & Core Concepts-

- DSA
- Generics & Collections
- Multithreading
- Asynchronous Programming

❖ Database Technologies

- SQL Server
- MySQL
- Database Design
- Stored Procedures

➤ Experience

Senior Software Engineer, Mphasis

Nov 2024 – present

- Developed secure banking modules for fund transfer and transactions using ASP.NET Core and RESTful APIs.
- Implemented OAuth/JWT authentication and integrated payment gateway services while optimizing SQL queries using LINQ.
- Supported CI/CD deployments, code reviews, and production issue resolution in an Agile environment.

Programmer Analyst, Cognizant

Jun 2022 – Jul 2023

- Developed and enhanced HRMS & Payroll modules with ASP.NET / ASP.NET Core and SQL Server backend.
- Built REST APIs using GET, POST, PUT, DELETE methods and implemented business logic and database queries.
- Supported SOX documentation, production deployments, debugging, and Agile development processes.

Software Developer, Cyient Limited

Dec 2021 – Jun 2022

- Developed airline reservation features including flight search, booking, cancellation, and passenger management.
- Built backend services using ASP.NET Core and responsive UI using Angular.
- Implemented CRUD operations, validations, and RESTful APIs following MVC architecture.

Dotnet Developer, Analyze Infotech

Jun 2019 – Dec 2021

- Developed eCommerce modules including product catalog, order management, and customer services.
- Optimized database performance and supported application deployments and system stability.

➤ Education

Bachelor in Computer Application (BCA) – Computer Science & Engineering, Integral University Lucknow, Uttar Pradesh 2018.

➤ Projects

Online Banking (OLB), Project at Mphasis

Nov 2024 – Feb 2026

- Developed secure banking modules for fund transfer and transactions using ASP.NET Core and RESTful APIs

❖ Messaging & Streaming-

- Apache Kafka

❖ Security

- OAuth (Authentication & Authorization)

❖ Tools & Development Environment-

- Visual Studio
- VS Code
- Git
- GitHub
- Postman
- Swagger
- SSMS

❖ DevOps & Cloud-

- Docker (Basic) Jenkins
- JFrog & Microsoft Azure (Basic)
- IIS & CI/CD Pipelines (Basic)

❖ Development Practices-

- Unit Testing
- Debugging & Code Review
- Agile / Scrum & SDLC

❖ Front-end Technologies and Framework-

- HTML, CSS, Bootstrap 3, & 5
- Angular js, Angular 15 and above

➤ Languages

- English
- Hindi

➤ Professional Links

- Github
- LinkedIn

➤ Address

Yusufguda, Hyderabad,

500045, Telangana

manishkumar.indup@gmail.com

Contact No: +91 868 777 7800

- Implemented OAuth/JWT authentication and integrated payment gateway services while optimizing SQL queries using LINQ.
- Supported CI/CD deployments, code reviews, and production issue resolution in an Agile environment.

HRMS & Payroll (My Pay Application), Project at Cognizant

Jun 2022 – Jul 2023

- Developed and enhanced HRMS & Payroll modules with ASP.NET / ASP.NET Core and SQL Server backend.
- Built REST APIs using GET, POST, PUT, DELETE methods and implemented business logic and database queries.
- Supported SOX documentation, production deployments, debugging, and Agile development processes.

Airline Ticketing & Reservation System, Project at Cyient Limited

Dec 2021 – Jun 2022

- Developed airline reservation features including flight search, booking, cancellation, and passenger management.
- Built backend services using ASP.NET Core and responsive UI using Angular.
- Implemented CRUD operations, validations, and RESTful APIs following MVC architecture.

Retail Commerce Operations Portal, Project at Analyze Infotech

Jun 2019 – Dec 2021

- Developed eCommerce modules including product catalog, order management, and customer services.
- Optimized database performance and supported application deployments and system stability.

➤ Professional Summary

- 5+ years of experience in designing, developing, and maintaining scalable web applications using C#, .NET Core, ASP.NET, ASP.NET MVC, and RESTful APIs.
- Strong experience in full-stack development using Angular, HTML, CSS, and JavaScript to build responsive and user-friendly applications.
- Proficient in C# and OOPS concepts including Generics, Collections, Multithreading, and asynchronous programming for developing efficient and high-performance applications.
- Hands-on experience with Entity Framework, ADO.NET, SQL databases (SQL Server/PostgreSQL) including database design, query optimization, and performance tuning.
- Experience in microservices architecture, implementing API Gateway, Kafka messaging, and event-driven systems, with authentication mechanisms like OAuth. Familiar with DevOps and cloud practices including Git, Jenkins, Frog, CI/CD pipelines, Docker, and Microsoft Azure.
- Experienced in Agile/Scrum environments, collaborating with cross-functional teams, conducting code reviews, and delivering high-quality software solutions.
- Developed secure banking modules for fund transfer and transactions using ASP.NET Core and RESTful APIs.
- Developed and enhanced HRMS & Payroll modules with ASP.NET / ASP.NET Core and SQL Server backend.
- Developed eCommerce modules including product catalog, order management, and customer services.
- Developed airline reservation features including flight search, booking, cancellation, and passenger management.
- I can contribute to building secure, high-performance, and reliable solutions while continuously enhancing my technical and problem-solving skills in an Agile development environment
