Manish Kumar

Senior Software Engineer

To leverage 5+ years of experience as a .NET Full Stack Developer in designing, developing, and maintaining scalable web applications using C#, ASP.NET Core, MVC, Web API, Angular, and SQL Server. Seeking a challenging role in a growth-oriented organization where I can contribute to building secure, high-performance, and reliable solutions while continuously enhancing my technical and problem-solving skills in an Agile development environment

Skills

- Programming Languages-
  - C#
  - JavaScript
  - TypeScript
  - SQL
- Backend Technologies & Framework-
  - ASP.NET Core
  - ASP.NET Core MVC
  - ASP.NET Web API
  - RESTful Services
- Data Access & ORM-
  - Entity Framework Core
  - LINQ
  - Ado.Net
- Software Design & Architecture -
  - OOPs
  - SOLID Principles
  - MVC
  - Microservices
  - API Gateway & Event - Driven
- Data Structure & Core Concepts-
  - DSA
  - Generics & Collections
  - Multithreading
  - Asynchronous Programming
- Database Technologies
  - SQL Server
  - MySQL
  - Database Design
  - Stored Procedures

Experience

Senior Software Engineer, Mphasis

Nov 2024 – Feb 2026

- Developed secure banking modules for fund transfer and transactions using ASP.NET Core and RESTful APIs.
- Implemented OAuth/JWT authentication and integrated payment gateway services while optimizing SQL queries using LINQ.
- Supported CI/CD deployments, code reviews, and production issue resolution in an Agile environment.

Programmer Analyst, Cognizant

Jun 2022 – Jul 2023

- Developed and enhanced HRMS & Payroll modules with ASP.NET / ASP.NET Core and SQL Server backend.
- Built REST APIs using GET, POST, PUT, DELETE methods and implemented business logic and database queries.
- Supported SOX documentation, production deployments, debugging, and Agile development processes.

Software Developer, Cyient Limited

Dec 2021 – Jun 2022

- Developed airline reservation features including flight search, booking, cancellation, and passenger management.
- Built backend services using ASP.NET Core and responsive UI using Angular.
- Implemented CRUD operations, validations, and RESTful APIs following MVC architecture.

Software Developer, Analyze Infotech

Jun 2019 – Dec 2021

- Developed eCommerce modules including product catalog, order management, and customer services.
- Optimized database performance and supported application deployments and system stability.

Education

Bachelor in Computer Application (BCA) – Computer Science & Engineering, Integral University Lucknow, Uttar Pradesh 2018.

Projects

Online Banking (OLB), Project at Mphasis

Nov 2024 – Feb 2026

- Developed secure banking modules for fund transfer and transactions using ASP.NET Core and RESTful APIs

- Messaging & Streaming
  - Apache Kafka
- Security
  - OAuth (Authentication & Authorization)
- Tools & Development Environment
  - Visual Studio
  - VS Code
  - Git
  - GitHub
  - Postman
  - Swagger
  - SSMS
- DevOps & Cloud
  - Docker (Basic)Jenkins
  - JFrog & Microsoft Azure (Basic)
  - IIS & CI/CD Pipelines (Basic)
- Development Practices
  - Unit Testing
  - Debuggin g & Code Review
  - Agile / Scrum & SDLC

Languages

- English
- Hindi

- Implemented OAuth/JWT authentication and integrated payment gateway services while optimizing SQL queries using LINQ.
- Supported CI/CD deployments, code reviews, and production issue resolution in an Agile environment.

HRMS & Payroll (My Pay Application), Project at Cognizant

Jun 2022 – Jul 2023

- Developed and enhanced HRMS & Payroll modules with ASP.NET / ASP.NET Core and SQL Server backend.
- Built REST APIs using GET, POST, PUT, DELETE methods and implemented business logic and database queries.
- Supported SOX documentation, production deployments, debugging, and Agile development processes.

Airline Ticketing & Reservation System, Project at Cyient Limited

Dec 2021 – Jun 2022

- Developed airline reservation features including flight search, booking, cancellation, and passenger management.
- Built backend services using ASP.NET Core and responsive UI using Angular.
- Implemented CRUD operations, validations, and RESTful APIs following MVC architecture.

Retail Commerce Operations Portal, Project at Analyze Infotech

Jun 2019 – Dec 2021

- Developed eCommerce modules including product catalog, order management, and customer services.
- Optimized database performance and supported application deployments and system stability.

Professional Summary

- 5+ years of experience in designing, developing, and maintaining scalable web applications using C#, .NET Core, ASP.NET, ASP.NET MVC, and RESTful APIs.
- Strong experience in full-stack development using React.js / Angular, HTML, CSS, and JavaScript to build responsive and user-friendly applications.
- Proficient in C# and OOPS concepts including Generics, Collections, Multithreading, and asynchronous programming for developing efficient and high-performance applications.
- Hands-on experience with Entity Framework, ADO.NET, SQL databases (SQL Server/PostgreSQL) including database design, query optimization, and performance tuning.
- Experience in microservices architecture, implementing API Gateway, Kafka messaging, and event-driven systems, with authentication mechanisms like OAuth. Familiar with DevOps and cloud practices including Git, Jenkins, Frog, CI/CD pipelines, Docker, and Microsoft Azure.
- Experienced in Agile/Scrum environments, collaborating with cross-functional teams, conducting code reviews, and delivering high-quality software solutions.
